

National Tire Safety Week

June 28 - July 4, 2021

Tips for Preventing Tire Damage

- Slow down if you have to go over a pothole or other object in the road.

- Do not run over curbs or other foreign objects in the roadway, and try not to strike the curb when parking.

Tire Safety Checklist

- ✓ Check tire pressure regularly (at least once a month), including the spare.

- ✓ Check tire pressure before going on a long trip.
- ✓ Make sure your tire valves have stem caps.

- ✓ Inspect tires for uneven wear patterns on the tread, cracks, foreign objects, or other signs of wear or trauma.

- ✓ Remove bits of glass and other foreign objects wedged in the tread.

- ✓ Do not overload your vehicle. Check the tire information placard or owner's manual for the maximum recommended load for the vehicle.

- ✓ If you are towing a trailer, remember that some of the weight of the loaded trailer is transferred to the towing vehicle.
